KuulAire™ 40

The KuulAire™ 40 (KA40) evaporative cooling unit from Port-A-Cool, LLC is a portable unit perfect for spot cooling small spaces. The KuulAire KA40 utilizes the most technologically advanced cooling pads available, and water to cool the air naturally and economically. Using the same electricity as a single light bulb, the KuulAire KA40 is incredibly efficient. Doubling as an evaporative cooler or simple fan, this compact unit is ideal for use indoors, in sunrooms, hobby workshop or on a small patio.

Features:

- 150 sq. ft. cooling capacity
- 3 speed settings
