## KuulAire™ 77

The KuulAire™ 77 (KA77) evaporative cooling unit from Port-A-Cool® is revolutionizing outdoor cooling efficiency. This portable evaporative cooler fits comfortably into outdoor settings to cool up to 600 square feet. The KuulAire KA77 uses water to cool the air naturally to provide an enjoyable environment. By utilizing high-efficiency, rigid cooling pads, the KuulAire KA77 can achieve a 15-25° temperature drop, depending on the climate. Using less electricity than a typical hair dryer, the KuulAire KA77 is a cost-effective solution for extending outdoor enjoyment during hot summer months. With sturdy wheels and casters, this unit easily moves outdoors or inside. The KuulAire KA77 provides powerful, economical and clean cooling where it is needed.
